Trick Pony, Every Other Memory

"I thought I had it beat, I thought I was cured
I didn't feel the need for you anymore
I had an iron will so I dropped my guard
Then I found I still had you in my heart
I gave up, I tried my best
It's time to admit I'm powerless, but...

Chorus:

Hey, I'm gonna be fine
Takin' it one step at a time
Prayin' you right off of my mind
If only for today
I may never be free
It's a lifelong recovery
But when I think of you and me
At least I cut it down to every other memory

Once a habit's formed, man, it's hard to quit
I'm countin' on the Lord to help me forget
His tender kiss and the way we touched
I tried to resist but I'm not strong enough
Little by little I'm facing the facts
It's two steps forward and one step back

(chorus 2x)

At least I cut it down to every other memory
Every other memory
