

Trickside, Into Thin Air

Another night of video
We roll the dirty parts in slow mo
We know there's more to life than this I'm sure
Don't wanna be no ordinary slob
Piss away this dead-end job
And go start a fire somewhere

Every single moment of our life is spent thinking
Of those one or two moments when we really could be living
But we're not, so we stop
Do our best to forget
The moments in our little lives that haven't happened yet

Into thin air
Shake the CIA
They won't find us anywhere
Into thin air
Meet our ETA
Touch down in Costa Rica
Split the booty when we're there

And if things don't work out right
We'll split and meet behind the docks at midnight
We'll cross the border together then we're gone
So keep the pistol in your coat and just hand the man your note
And make sure that you look a little crazy

Every time you look there's something more for you to prove
You never find a way to win when you're too afraid to lose
So bet it all on black
Double down if you can
Head on down the coast and we'll get started on our tan

Into thin air
Shake the CIA
They won't find us anywhere
Whoa no no no no no
Into thin air
Meet our ETA
Touch down in Costa Rica
Split the booty when we're there

There's more to life than this
Got to be something now more to my life than this
Can we ever get rolling
Will we ever be more than this

Every single moment of our life is spent thinking
Of those one or two moments when we really could be living
But we're not, so we stop
Do our best to forget
The moments in our little lives that haven't happened yet

Every time you look there's something more for you to prove
You never find a way to win when you're too afraid to lose
So bet it all on black
Double down if you can
Head on down the coast and we'll get started on our tan

Into thin air
Shake the CIA
They won't find us anywhere
Whoa no no no no no
Into thin air

Meet our ETA
Touch down in Costa Rica
Split the booty when we're there
Touch down in Costa Rica
Split the booty when we're there
Touch down in Costa Rica
Split the booty when we're there
