

Tricky, Call Me

D'na:

I'm calling you

I'm calling you now

And now won't wait

And now won't change now

Or rearrange

it might get strange now

it might get strange now

Tricky and D'na:

Just fallin' free

Just fall in me

And i'm your coffin

And I'm your coffin

For endless sleep now

For endless sleep now

Little sunbeam

I hear you scream

I feel your heat now

I feel your heat now

Here's to one way sleep now

I hear trees scream

Ain't the people mean?

What do they mean?

It's time to sleep now

It's time to go now

I wait for you, I wait for you

I wait for you, I wait for you

I wait for you

Little sunbeam

I can hear you scream

I can feel your heat now

I can feel your heat now

Here's to one way sleep now

I hear trees scream

Ain't the people mean?

What do they mean?

It's time to sleep now

It's time to go now

I wait for you, I wait for you

I wait for you, I hate for you

I wait for you, i hate for you

I wait for you, i hate for you

I wait for you, i hate for you

I wait for you, i hate for you

I wait for you, i hate for you

Hate for you

I wait for you, I wait for you

I wait for you, I hate for you

I hate for you

Hate for you

I hate for you

I can feel your heat now

It's time to go now
