Tricky, Cradle To The Grave

"Tricky:" From cradle to grave From cradle to grave

"Grace:" I am woman I am sun I can give birth to she I can give birth to son And I can be cool Soft as the breeze, I'll be a hurricane Ripping up trees!

I am woman, I am sun I am woman, I am sun

Can't see where I run No matter how far!

I am woman, I am sun I can give birth to she I can give birth to son! And I can be cool Soft like the breeze, I'll be a hurricane Ripping up trees!

I can scheme, I can lie, I'll take care of you, til the day you die.

I can hold brush, I can push broom, When I walk by, flowers will bloom.

Lonesome man, wiser boy Lonesome man, wiser boy

I'll be a hurricane, ripping up trees!

You keep taking I keep aching!

I can scheme, I can lie, I'll take care of you, til the day you die. I'll be a hurricane, ripping up trees! You keep taking I keep aching! (x13)
