

# Tricky, Feed Me

[Tricky raps in the background throughout:  
hey you, so whatcha gonna do  
terrible, searable, popular demand  
from cradle to grave, the simple diary of man]  
Martine:

how things are together we'll destroy  
and then we can destroy what we are  
together we can build what we are when we dream the spirit free  
we dont give praise, we take praise  
so why are we?

how things are together we'll destroy  
and then we can destroy what we are  
together we can build what we are when we dream the spirit free  
we dont give praise, we take praise  
so why are we?

feed me when im hungry  
drink me till im dry

the dream of yesterday becomes another lie  
you feed me lies--distortion--the english disaster  
no ones free from love for one master  
we found a new place to live where we're taught to grow strong  
and strongly sensitive, it always sets the scenery  
colors leave only beauty, words and wine amongst the greenery

see how it is  
see how it is

we only let you teach us wrong and right  
give us priority

seniority

seniority

seniority

we only let you teach us wrong and right  
give us priority

seniority

seniority

seniority

extract from crystal though nothing is clear

i despise you, damn you, dream you

i love you

but still nothings clear

i think of when i found you

keep on singin while im drowning

down into that two-tone vision

ive been raised [maze] in this place

and now concrete is my religion

see how it is

see how it is

see how it is

see how it is

we only let you teach us wrong and right  
give us priority

seniority

seniority

seniority

we only let you teach us wrong and right  
give us priority

seniority

seniority

seniority

we only let you teach us wrong and right  
give us priority
