(All vocals by tricky, words in parentheses are unclear)

(Spoken)

How things are
Together we'll destroy
Then we can destroy what we are
Then we'll build what we are
When we dream the spirit free
We don't give praise we take praise
And why are we

(Rapped)

How things are
Together we'll destroy
Then we can destroy what we are
Then we'll build what we are
When we dream the spirit free
We don't give praise we take praise
And why are we

This isn't crystal though nothing is clear

I despise you

I damn you

Dream you

I love you

But still nothing's clear

I think of when i found you

(Deep deep) in salt water

Drag you down into life

See(m) some vision

Raised in this place

Concrete is my religion

The place where the sun(s makes mostly sense)

See how it ends

You feed me when I'm hungry

Drink me 'til I'm dry

You dream then and now

Isn't nothing but a lie

Human lies

Distortion

The English disaster

Though we're free

Black or White

One law for one master

I found a new place to live

We're taught to grow strong

Strongly sensitive

And life sets the scenery

Colors leave only beauty

Words and wine amongst the greenery

The only lessons the teach from the margin

The ask my origin

Tomorrow's sin

But now you're being (choosajooed) to color

Ask

Where i'm from

Me? I'm from my mother

(scratched sample)
I take small step

(grumbled)
(Which relates)

The place where the sun(s makes mostly sense)
See how it ends...
