

# Triggerfinger, First Taste

I myself Have got a shattered knee  
certain urges tha makes a man complete  
and its in her eyes and its in her move

got my target locked on infrared  
theres no escaping got my destination set  
full of consequences, all at my expense

Hit me hard with a two by four  
I come back and ask for more more more more  
you can move unkind, baby i dont mind

you can turn twist me round and round  
you can rough me up and rough me down  
you can turn me left and turn me right  
well then ill take the first taste
