

Trijntje Oosterhuis, It's You I Need

*Verse

Do you ever wonder what it would be like
If once you took a left instead of right
We might not be here tonight now

But out of like a million possibilities
With all that might have happened differently
Life has brought you here with me tonight

*Chorus

And now that Ive found you
Im not gonna let you slip away
Oh and whatever fear may strike you
Ill be there to remind you
In this crazy life we lead
Its you I need

*Verse

Do you ever wonder what is meant to be
Cause everything that came so instantly
Could disappear as easily now
Baby dont you worry we will make it through
Whatever people say or people do
Ill never stop believing in you and me

*Chorus

And now that Ive found you
Im not gonna let you slip away
Oh and whatever fear may strike you
Ill be there to remind you
In this crazy life we lead
Its you I need

Its you I need
