

# Trip Fontaine, Moon Balloon

You got this baloon  
it could take us to the moon  
in only one night  
don't you think we should try?  
to check out the view  
i think the stars, the earth and galaxy are blue  
and so are you

another attempt  
all the fucking money that i spent  
wasn't worth it at all  
oh no, no  
oh no, no

and also  
all those honest people, that I know  
told me so

but  
I'm just way to curious to get to know  
before I'm old

rain in sommertime  
it makes me feel so melancholic  
spain in wintertime  
it seems to be allright

HEY
