

Triple Image, I Kissed A Boy

(chorus)

i kissed a boy for the very first time
can't explain this feeling going out of my mind
i kissed a boy and it made me feel fine
i'll remember this moment until the end of time
i kissed a boy, yeah yeah
i kissed a boy, yeah yeah

always on the road all of the time
can't seem to get that kiss out of my mind
can't wait to get home to be with him soon
walk him home from school like we used to do
gotta tell someone about it
gotta raise my voice and shout it
time for me to celebrate and share it with the world

(chorus)

from the first time that i saw u, u had my heart (u had my heart)
i was totally mesmerized rite from the start (rite from the start)
can't begin to tell u how you changed my life
all i do is think about you day and nite
gotta tell someone about it
gotta raise my voice and shout it
time for me to celebrate and share it w/ the world

i kissed a boy for the very first time (very first time)
can't explain this feeling going out of my mind
i kissed a boy and it made me feel fine
i'll remember this moment until the end of time

all i do is talk about you
every night i dream about you
u and me together babe
i want you for my boy
all i wanna hear u say is u will b my boy someday
the moment that i kissed you boy
i had to tell the world

(chorus)

i kissed a boy, yeah yeah
