

Tripping Daisy, Same Dress New Day

take off your coat
your silver is tarnished
lady in darkness
the cat is old and still
keep all your makeup
packed on your head
invite all the demons
the truck stops in the bed
you can't rely on a stranger to love you
you can't rely on a friend who's dead
you can't deny all the people who love you
you can't deny when their love is dead
you know that you will love you still
you can't deny the love that you must.....
brush off your anger
go fix your hair
tell all the people
the brain is always dead
the sky is the limit
when the ocean is hiding
keep all your secrets
locked inside
you can't rely on a stranger to love you
you can't rely on a friend who's dead
you can't deny all the people who love you
you can't deny when their love is dead
you know that you will love you still
you can't deny the love that you must feel
