

Tripside, Realize

I am awake.
What ever you think,
don't go away.

The thoughts in my head,
are turning red,
don't go away.

So what do you think I am?
Some type of fool?
You take me once,
you take me twice,
but please dont lie.

It's time,
it's time to realize,
what you,
what you see in my eyes...

So take it from me.
What do you see?
I'm talking again.
We talk all night,
your keeping it tight.
we're talking again.

So what do you think I am?
Some type of fool?
You take me once,
you take me twice,
but please dont lie.

It's time,
it's time to realize,
what you,
what you see in my eyes...

And wont you please tell me it's time,
cause you are what i've been waitint for.
