

Triptii, Mentally Alive

It took a whole lot of mind, and concentration
To become a living member of Emancipation - i'm free
It took a brand new struggle, and ability
to take away the insane immaturity - i'm free
Television, Elevation from the body and the mind -
Taking mental medication to remind me i'm alive -
I am feeding off of people who continue to survive -
I will never let a little counterfeit in my life
Life is a feeding operation - given to you - every situation - i'm free.

CHORUS:

I Separated on my own
and I will Fly
To a place where I am Mentally Alive
Here I am i'm growing Stronger everyday
Here I am don't take me any other way.

The Prison Walls surrounding me
Surround me from Reality
Communicating with my soul - rhythm inside of me
The World's a telemarketer - they never get enough
We forget what we are given - we've forgotten how to love
I will never forget it - and never regret it -
no matter what i'm going to let it
remember i said it - i'm gonna be free...
Growing up i had a vision of a beautiful life-
Growing up ahead of - instead of becoming alive
I didn't realize - my eyes are part of the solution
they bring together, the better of every illusion
Life is a feeding operation -
given to you every situation - i'm free.

CHORUS

Am i foolish, or am i going blind?
Am i clueless Mentally Alive
