

Trish Thuy Trang, All Alone

All alone find a way in your own dream
Looking at you I see the sorrow in your eyes
Here I am been searching for someone
To share my life and dreams
Side by side tenderly fly away with me
Take my hand tell me that your heart is free
Promise me that you'll never go away
You and I we'll build this love together
Forever we'll be as one
Hold me now and touch me now
I'm falling in love with you

Chorus

This is the time I wanna say I love you
This is the love I wanna last forever
This is the time to say my love is here to stay
I want forever and ever...you'll be mine

You and I we'll build this love together
Forever we'll be as one
Hold me now and touch me now
I'm falling in love with you

Chorus x2
