

# Trish Thuy Trang, All This Time

## ALL THIS TIME

Never thought you'd go, Oh oh my love;  
You told me, you would always be mine;  
Sometimes, looking back.  
I see how happy we were back in time;

Always thought you'd be there, where could you go;  
You were mine my number one; I'll wait all my life;  
I'm gonna love you till the day I die;

## CHORUS

All this time, waiting for my love to come back.  
All this time, wondering why my love had to go;  
If you love me tell me, I just wanna know.  
Don't let me cry without you in my life

Gotta have you more, each passing day;  
Such a mess, since you went away; See you by my side;  
I'm gonna love you till the end of time;

Always thought you'd be mine, to have and to hold.  
Said you'd never let me go; Oh love of my life;  
I'm gonna love you till the day I die;

## CHORUS

All this time, waiting for my love to come back.  
All this time, wondering why my love had to go;  
Someday you'll be with me oh I love you so;  
You'll hold me tight and never say goodbye; rics here"
