

Triumph, Little Texas Shaker

The boys were rock 'n' rollin' down in old San Antone
About two thousand miles far away from their home
A little brown eyed beauty was shakin' her thing
The band was hot ya know the modd was right
Gotta shek it up tonight

CHORUS:

Got to shake it Little Texas Shaker
Got to shake your money maker
Got to shake it Little Texas Shaker

Ya, there were pretty ladies standin' all in a row
Waitin' for the boys right after the show
But she was like diamond among other girls
The band was hot ya know the mood was right
Gotta shake it up tonight

CHORUS

Hey pretty baby forget all you fears
Rock to the music ringin' in my ears
Well I'm a see-saw lover and I think you know
If you don't want to make it then you got to go
Tonight we'll have a party yes I think we might
The band was hot ya know the mood was right
Gotta shake it up tonight
