

# Trivium, When All Light Dies

In this chasm lying broken  
Is a child charred inside  
No more is there any hope  
Shattered bones bloodied scars  
Deliver me towards the soil  
Close up the sun grant me rest  
In worms coil  
It's so beautiful  
World outside of this cell  
With a somber gaze  
I take in what will never be

Prayed to be free  
Broken on my knees  
God won't appear  
When all light dies  
It's my only wish to die  
Free myself from your reign of terror  
So many times swear I died  
Why won't the blood loss kill me  
Deliver me towards the soil  
Close up the sun grant me rest  
In worms coil  
It's so beautiful  
World outside of this cell  
With a somber gaze  
I take in what will never be

Make me swear if I see your face again  
I'd make you pay for the years of abuse  
Fuck you  
Tie you up make you bleed tear you apart  
Limb from limb so many years I've held this in  
I want to take your life  
Make me swear if I see your face again  
Tie you up make you bleed  
Just like me
