

# Trouble, The Sleeper

Noises in the corner of the park  
do birds fly higher in the dark  
scenes of unopened eyes - goodbye  
this is where the lonely sleeper's soul lies

(Chorus)

Shine on everyone  
somewhere there's got to be a better sun

where is peace and understanding  
strong winds of promise blow away  
lost in a cloud of mystery - I'm free  
this is where the lonely sleeper's soul lies

(Chorus, 1st verse, chorus)
