

TRUSTcompany, Seasons Change

I'm pushing this away
So I can see
The season's rearrange
In front of me
I'm needing this to stay
To keep me warm
Discomfort in the change

It's all around
It's falling on me
Again, I am out
The seasons changing
Again

I'm keeping to this today
Inside of me
It takes the worst away
So I can breathe

I'm needing this to stay
To keep me warm
The season's rearrange

It's all around
It's falling on me
Again, I am out
The seasons changing
Again
It's falling on me
Again, I'm out
The seasons changing
Again

For this so long
And I have
Been waiting for (Been waiting for)

(And I know, and I know) That it's changing before me
(And I know, and I know) That it's changing before me
(And I know, and I know) That it's changing before me
Changing before me

So winter's here
So winter's here
