

Truth Brutal, Judgement

hated...time and time again
force fed, suppress senseless fear of difference
true self suppression, hollow dreams of misery

blind wish to see
indifference to be

freedom, expressionless bouts of legislation
true self repression, take a stance or fall to your knees

corrupt in the system
laws bent to other needs
god fears idiocy
ignore just pleas

blind wish to see
indifference to be
concrete hypocrisy
weigh heavy

idiosyncrasy
ruling powers be
idiosyncrasy
never really free
