

# Tryad, My Piano Sings (Part 4) (With Joana Smith)

Touch  
Seems to be all we could need

Fire  
Fills our hearts up with heat

Bodies  
Make a cold world warm

Embrace  
Is a reason  
Hold on

Better live before you are gone

Sing  
Before the end of the song

Wake me up and keep going  
You know  
I fell apart at the seems today?  
Pull the covers over  
I'm reaching out to find my way

Because you understand me  
Because the world cuts deeper  
With love in my hands  
Because you move so simply with me  
And night brings me back to this union
