

# Tsunami Bomb, Take the Reins

18 you think you're free  
to be what you wanna be  
Have a job or 2 or 3-  
You'll say you're sorry  
Don't try to run or fight  
Ask how or when or why  
Who cares what wrong or right  
It's money that matters

Each day just like the next  
We struggle on and on  
In nightmares, but we're still marching  
Handcuffed to life again  
Don't try they'll only push you down  
What's opportunity?  
You've got what you've wanted now!

How long 'till I'm my own?  
Independence doesn't start when you leave home

Locked in, can't get out  
Your cube is your new home  
4 walls; no windows, no doors  
Handcuffed to life again  
Don't try they'll only push you down  
What's opportunity?  
You've got what you wanted now!

How long 'till I'm my own?  
Independence doesn't start when you leave home

you thought you could get away from rules and regulations  
if you could just get away from home,  
but now you're finding out the sad reality,  
you're trapped again,  
but this time you're on your own.

How long 'till I'm my own?  
Independence doesn't start when you leave home

Handcuffed to life again  
What's opportunity?  
You've got what you wanted now!

How long 'till I'm my own?  
Independence doesn't start when you leave home  
How long 'till I'm my own?  
Independence doesn't start when you leave home
