Tub Ring, Love Krook

Like a dog without a bone Like a child without a home I sit here all alone Waiting in the dark by the phone

(Figure this part out yourself)

My heart is like an open book So won't you take another look I keep thinking of the special feeling you took You'll always be my love krook

(Good luck with this part)

Love krook, I want you back Love krook, won't you please come back to me

Love krook, I want you back Love krook, won't you please come back to me Oh, I miss you so
