

Turbo, Burn

The sky is red, I dont understand
Past midnight, I still see the land
People are sayin the woman is damned
She makes you burn with a wave of her hand
The citys a blaze, the towns on fire
The womans flames are reaching higher
We were fools we called her liar
All I hear Burn
I didnt believe she was devils sperm
She said: Curse you all! Youll never learn!
When I leave theres no return
The people laughed till she said Burn!
Warning came, no one cared
Earth was shakin, we stood and stared
When it came, no one was spared
Still I hearBurn!
You know we had no time
We could not even try
You know we had no time
You know
The sky is red
Warning came, no one cared
Earth was shakin, we stood and stared
When it came, no one was spared
Still I hearBurn!
