

Turn Off The Stars, Please

Wait, what a beautiful place
Sun breaking through to my face
My face, my face
Please, get me off of my knees
I'm just begging you please
Please, please

I'll be taking you right by the hand
I know that you dont understand

Break, you're breaking on through the day
Helping me finding my way
The way, the way
Time, is now on my side
My side, my side

I'll be taking you right by the hand
I know that you dont understand
