

Twice Born, Your Own World

You're so caught up in your ways and I don't fit into your system
Now you say 'I don't know God because you say you do,
And I'm not like you.'

God's greatest commandment is love
The one thing I see the least of, in the religious world today
Don't deny God for man's deeds.

God knows no color, God knows no gender
God knows no culture, God shows no favor
God, show us mercy, it's your heart that matters
God, show us mercy.
