

# Twila Paris, We Shall Assemble

## Verse I

If you find that you're living  
In a desert  
never fear  
Even though the earth is hard and dry  
If you'll share what you've been given  
New life will appear  
Soon you'll see a river rushin' by

## CHORUS

Spring water  
Coming up from deep inside  
Spring water  
Holy Spirit purified  
He knows how to distill it  
All you gotta do is let Him spill it all around  
Spring water  
You just can't keep it in the ground

## Verse II

Pour your life out  
go ahead and give it all away  
You'll get back a lot more than you gave  
What will be tommorrow's promise  
water every day  
You can only lose the love you've saved.

## CHORUS

CHORUS repeat last 2 lines until end
