

Twin-A, Like I Do

Come with me
And tell me what you're needing
Tell me what you're feeling
Does he still feel the same?

Cause I'm right here
Oh lately I've been dying
And lately I've been trying
To bring you back to me

Beautiful
He don't see what I see
He don't know what I know
Cause he don't love you like I do

Twenty years
And I will still be waiting
And I will be still be hating
Myself the way it goes

Beautiful
He don't see what I see
He don't know what I know
He don't love you like I do

Cause everyone's a traitor here
You know that this seems unclear
Everyone beside you is
A liar and a thief
Come around when you are down
And I'll be there for you
Come around when you are through

Beautiful he don't see what I see
He don't know what I know
He don't love you like I do
No one loves you like I do
