

Two Tongues, Tremors

[Max Bemis]

My love, I lack the confidence
to say what's on my mind
I guess I'm prone to shaking, sweat
confounded every time
I see you do the things you do
Pale and bright you shine
Because I need you here with me
I need you just to see me
I need you here with me
It is only a dream to me
I knew that you could save my life
without a word exchanged
Your way with words, so insecure
Can barely speak my name
My crumpled spine, and faulty lines
I'm sick and small and strange
I need you here with me
I need you just to see me
I need you here with me
It is only a dream to me

[Chris Conley]

I saw you standing there
Along with your guitar
Like I was staring into the mirror
Seeing the same sad scar
I want to reach into you
I want to hold you here
But the tremors in your body make it hard to sleep

[Max Bemis]

Yeah, the tremors in my body make it hard to speak these words
I need you here with me
I need you just to see me
I need you here with me
Yeah, it is only a dream to me
I need you here with me
I need you just to see me
I need you here with me
Yeah, it is only a dream to me

[Chris Conley]

(I saw you standing there
Along with your guitar
Like I was staring into the mirror)
