

Ty Herndon, That's What I Call Love

i'd walk through fire,
take on the shadow,
id do anything for you my love

i'd risk it all,
without thinking,
all i can think about is holding on

when my heart feels like its flying up above the rain
caught up in emotions, that i cant explain
its a never ending feeling i cant get enough of
i cant live without you baby
thats what i call love

money talks
people listen
some they dont understand what its all about
cause it cant be bought
its only given
now that its come along
there aint no doubt

when my heart feels like its flying up above the rain
caught up in emotions
that i cant explain
its a never ending feeling i cant get enough of
i cant live without you baby
thats what i call love, yeah

well i thought id looked in ever corner
and i swore id opened every door
but just when i cant get enough
i finally found the love that id been
searching for

when my heart feels like its flying up above the rain,
caught up in emotions
that i cant explain
its a never ending feeling i cant get enough of
i cant live without you baby,
thats what i call love
i cant live without you baby,
thats what i call love
