

Tyketto, All Over Me

Hah hah, be careful now
Oooh

Lucy would swear she made a deal with the devil
I don't know but it might be on the level
Under a spell, you know, she put me on the table
And dinner was served

Simmer just to boiling, serve this boy up so well done, oh yeah
Flavour him to taste, don't let none go to waste

Chorus:
She got the motion, she got the need, she got it all over me
She got the rhythm, my baby got the beat, you know she got it all over me

Cindy was sweet but she could get kinda manly
No doubt about who wear the pants in the family
Do what she says or it could get nasty - "Get over here boy!"

Mmm she love adventure, swashes buckled all the way down - now now yeah
Now you're puss in boots, got my head in the noose

(Chorus)

(Solo)

Now you're puss in boots, well a well I got my head in the noose

(Chorus)

She got the motion, she got the need need need need need
She got it all over me
