

# Tyketto, Meet Me In The Night

Somebody's calling out your secret name  
And your window's being kissed by stones  
Baby can you hear my silent serenade  
When I'm standing in the dark alone

We could never show, and we could never tell  
'Bout the wildfire in our veins  
Crashing down the doors and breaking all the spells  
'Till nothing but the love remains

Colours clash, colours fly, colours bleed when the tears run dry  
Colours run, but they can't hide, still we gotta try

Meet me in the night, baby say a prayer  
We will never lose our way  
Meet me in the night, say that you'll be there  
Never fade away

Flying through the chill of the Ohio night  
Their laughter echoes in the air  
Drive across the river to the other side  
Nobody will know us there

Colours clash, colours fly, colours bleed when the tears run dry  
Colours run, but they can't hide, still we gotta try

Meet me in the night, baby say a prayer  
We will never lose our way  
Meet me in the night, say that you'll be there  
Never fade away

Meet me in the night, baby say a prayer  
We will never lose our way  
Meet me in the night, say that you'll be there  
Never fade away

Meet me in the night, say that you'll be there  
Never fade away  
Meet me in the night, say that you'll be there  
Never fade away

Meet me in the night, say that you'll be there  
Meet me in the night, baby say a prayer  
Meet me in the night, say that you'll be there  
Meet me in the night, baby say a prayer

Meet me in the night...
