

# Tyketto, Walking On Fire

Ooh, come on!

Out of love, in time I've been shoved down  
Spinning 'round in circles, left me upside down  
Turned my heart to stone, a rock don't bleed  
My heart is a prisoner that can't break free

You come along with fire and dynamite  
Blew the roof right offa this poor boy's life  
I'm the cat, I howl, strikin' home  
Back in business and I'm not alone

Baby I know, it's gettin' better even if it's comin' slow  
Maybe this time, I could do anything with you by my side

Walk on, I could walk on fire,  
face the wind and stayin' true  
Walk on, I could walk on fire,  
you don't know what I wouldn't do for you  
Here's what I'd do

Now I got heart and soul back on the line  
Some think to steal you, huh, they're welcome to try  
I can't say that you are the reason why  
It's a game for two and it's you and I

Baby I know, it's gettin' better even if it's coming slow  
Maybe this time, I could do anything with you by my side

Walk on, I could walk on fire,  
face the wind and stayin' true  
Walk on, I could walk on fire,  
you don't know what I wouldn't do for you
