

Tyketto, Walking On Fire

Ooh, come on!

Out of love, in time I've been shoved down
Spinning 'round in circles, left me upside down
Turned my heart to stone, a rock don't bleed
My heart is a prisoner that can't break free

You come along with fire and dynamite
Blew the roof right offa this poor boy's life
I'm the cat, I howl, strikin' home
Back in business and I'm not alone

Baby I know, it's gettin' better even if it's comin' slow
Maybe this time, I could do anything with you by my side

Walk on, I could walk on fire,
face the wind and stayin' true
Walk on, I could walk on fire,
you don't know what I wouldn't do for you
Here's what I'd do

Now I got heart and soul back on the line
Some think to steal you, huh, they're welcome to try
I can't say that you are the reason why
It's a game for two and it's you and I

Baby I know, it's gettin' better even if it's coming slow
Maybe this time, I could do anything with you by my side

Walk on, I could walk on fire,
face the wind and stayin' true
Walk on, I could walk on fire,
you don't know what I wouldn't do for you
