

Tyler, The Creator, EARFQUAKE

for real for real
for real this time
for real for real
for real this time
for real for real
for real this time

'cause you make my Earth quake
you make my Earth quake
riding around, your love is shakin' me up
and it's making my heart break

'cause you make my Earth quake
you make my Earth quake
riding around, your love is shakin' me up
and it's making my heart break

don't leave
it's my fault
don't leave
it's my fault
don't leave
it's my fault

cause when it all comes crashing down
I'll need you

'cause you make my Earth quake
you make my Earth quake
riding around, your love is shakin' me up
and it's making my heart break

'cause you make my Earth quake
you make my Earth quake
riding around, your love is shakin' me up
and it's making my heart break
