

# Type O Negative, 12 Black Rainbows

[Taken from the European single Everything Dies, 1999]

[From the recording sessions of World Coming Down]

Idle hands may be the devil's work  
Unbridled minds you see are so much worse  
Too much pity spent and wasting time  
Irresponsibility not my only crime no

Obsessive thinking, depressed drinking  
The person i once was, he's dead  
Exhume the past this time or be my last  
This is my final quest to remove my mask yeah

Don't be afraid as she pulled down the shade  
Said there's nothing to fear but the monster is here  
So just tell me the time, be it quarter of nine  
Since the sun's gone away, now the creature will play

Ice blue eyes follow me everywhere i go  
Making my heart appear as lead  
I hate to wish it but i'll tell you though  
That i'm quite ready 'cause i'm already dead

Don't be afraid as she pulled down the shade  
Said there's nothing to fear but the monster is here  
So just tell me the time, be it quarter of nine  
Since the sun's gone away, now the creature will play

Don't be afraid as she pulled down the shade  
Said there's nothing to fear but the monster is here  
So just tell me the time, be it quarter of nine  
Since the sun's gone away, now the creature will play
