

# Type O Negative, My Girlfriend's Girlfriend (Cheese)

[Previously unreleased alternative mix]

[Original version can be found on the album October Rust]

It's no secret we're close - as sweaty velcro  
like latex fur and feathers - stuck together

Now - in their '62 vette - sharing one cigarette  
in a black light trance then - go go dance - then  
go go trance - then

They keep me warm on cold nights - it must be quite a sight  
in our meat triangle - all tangled - wow

My girlfriend's girlfriend - she looks like - you  
my girlfriend's girlfriend - she's my girl - too

Her and me and her and she and me - an uncrowded couple are we  
three  
hey we don't care - what people say - when walking hand in hand  
down kings highway  
two for one today

My girlfriend's girlfriend - she looks like - you  
my girlfriend's girlfriend - she's my girl - too

My girlfriend's girlfriend - she looks like - you  
my girlfriend's girlfriend - she's my girl
