

Type O Negative, My Girlfriend's Girlfriend (Chee

[Previously unreleased alternative mix]

[Original version can be found on the album October Rust]

It's no secret we're close - as sweaty velcro
like latex fur and feathers - stuck together

Now - in their '62 vette - sharing one cigarette
in a black light trance then - go go dance - then
go go trance - then

They keep me warm on cold nights - it must be quite a sight
in our meat triangle - all tangled - wow

My girlfriend's girlfriend - she looks like - you
my girlfriend's girlfriend - she's my girl - too

Her and me and her and she and me - an uncrowded couple are we
three
hey we don't care - what people say - when walking hand in hand
down kings highway
two for one today

My girlfriend's girlfriend - she looks like - you
my girlfriend's girlfriend - she's my girl - too

My girlfriend's girlfriend - she looks like - you
my girlfriend's girlfriend - she's my girl
