

Tyrone Wells, Sea Breeze

Did i really need her, was it just a sweet dream
That lingers in the morning, like a melody
Over and over, all through the day,
I can't stop thinkin' 'bout how i'm feeling this way

Not the lyrics to "sea breeze" ?, please report that below.
She moves like sea breeze, swirling around me
The fragrance that she leaves hangs in the air
Soft like a whisper, she's calling me to her,
These eyes have seen the most beautiful dream

Do you know what album had this song, can you report to us below?
We found each other, staring at the waves
We started talking and i couldn't break away
I made plans to meet tonight down by the pier
And when midnight strikes i'm gonna hold that dream near
