

# U.D.O., Painted Love

She's been around, knows how to make you think  
You're in a world of innocence  
She'll make you moan- make you moan and groan  
Then spit you out and eat your bones

She sits around and thinks about those lies  
It really makes her wonder  
Chasing history- her world of ecstasy  
A life of rape and plunder

Welcome to the rooms of your desire  
Painted love- painted love  
Take a ride and explore inside  
Painted love- painted love

She knows how to make you scream and shout  
You know she loves to get it out  
The fascination of a fuckin' lie  
It's just a case of do or die

She sits around and thinks...

Welcome to the rooms of your desire  
Painted love- painted love  
Reaching out- breaking out  
Painted love- painted love  
Take a ride, explore inside  
Painted love- painted love  
Reaching out- breaking out  
Painted love- painted love

Solo

She sits around and thinks...

Welcome to the rooms....
