

# U2, No Man's Land

City street lights  
And the multiple life  
But babe you gotta give and go

Cigarette lights  
Then my finger alights  
I need to be alone

She can take you tonight  
She can make you, that's alright  
She can break you tonight  
Don't misunderstand

Cigarette girls  
Goes head in and whirls  
You will be a superman

Open her booths  
Deal must to the bruiser  
Drinking all I can

We can take that tonight  
We can make them, that's right  
We can break them tonight  
Don't misunderstand

The light...  
Alone in the light  
Alone in the light  
In the sea of pain

You can take it tonight  
She can make you, that's right  
She can break you tonight  
Don't misunderstand  
'cause they cry, and...

Alone in the light  
Alone in the light  
Alone in the light  
In the sea at night

We rode the streets in the morning light  
We held our day in our hands

Alone in the light  
Alone in the light  
Alone in the light  
In the sea at night
