

Uffington Horse, Water's In The Hold

Feel the pain, knowin' that you cannot last
It's the song of siren screamin' in your head
Not too long and lad, you're gonna end up dead!

CHORUS:

So drive it through the water
A few feet more, you got her!
Just ram into the rock
And then feel it pitch and shock
'til your blood is pumping cold
Laddie, then there's water
Water's in the hold!

Touch of bubbles on your salted skin
No more troubles as you drift on in
Breath is leaving, you don't need that air
Death ain't grievin' and we just don't care!

Hold me close, hold me fast
Make this dark and wet night last
Water's in the hold!

Wrapped in ocean, you belong to me
Trapped in motion now, you can't get free
In my grips it seems you have to stay
Kiss my lips 'cause lad, it's best that way!
