

# UFly, Eclipse

I take my pill  
And all the pain has gone  
Another night  
Brings silence to my head

Lies  
You lay beside far away  
I feel  
That some one's watching us in bed

You stole it  
You stole all my shine  
Cause I was like a sun  
I used to feed our love light  
Now it's dark

I'd like to dance  
If you would play a song for me  
The table is set  
There's no reason to celebrate

Stay  
I have some bread and some wine  
Candlelight  
You're not at home, you have gone

You stole it  
You stole all my shine  
Cause I was like a sun  
I used to feed our love light  
Now it's dark

Shame  
I run away from people's sight  
Why  
I blame myself  
Will anyone take (the) place of you?

I'm waiting for my shine  
I'm waiting for the warmth  
I'm waiting for the hope  
I'm waiting for new life  
I'm waiting for relief  
I'm waiting for the moment  
I'm waiting for the day  
When you, you let me go
