

UFO, Gettin' Ready

(1) You said that was that but this is it
How are you to make the pieces fit
Into a plan to start a new life
Friends pat your back, then stab you with a knife

(2) I must be blind
I'm gettin' ready to redefine
No [loose connections] as it feels right
I'm gettin ready to hit the [line]
Can you fee me
Inside and out, I'm just waiting for you
[Cuz] it's alright
Now I know just what I want to do

(2) Repeat
When a day breaks, turns you around
And your world upside down
And the visions fade
Rights and wrongs and just where you've gone

(2) Repeat
[Pickin' up] is such an awful drag
And I could lose my mind
And every time that I turned around
I never knew if I could really find you
