

Ugress, Lost In Time

Clap clap
All that I have inside will get lost in time

This is all like fire
And you take me higher
You trip me off I'm flying
Can't you see I'm trying

All that I have inside will get lost in time
Your information is playing with my mind
All that I have inside will get lost in time
Your information is playing with my mind

This is all like fire
And you take me higher
You trip me off I'm flying
Can't you see I'm trying

(Bring me back
Back on track
Don't attack
Back on track)

All that I have inside will get lost in time
Your information is playing with my mind
All that I have inside will get lost in time
Your information is playing with my mind

This is all like fire
And you take me higher
You trip me off I'm flying
Can't you see I'm trying

Clap clap

Lost In Time

All that I have

Lost In Time
