

# Uli Jon Roth, Letter of the Law

Hear the law!  
Fear the law!  
Here comes the law!

Feed the law!  
Fear the law!  
We have the license to kill  
Poison all!  
Lock them up and shoot them at wall!  
Lies on stilts - break their wills  
Shock and awe - we're laying down the law!

Letter of the law keeps the people small!  
Keepers of the law - we bring shock and awe  
We bring the war - need to keep the people small

Let them fall - keep them small  
We decide who gets the ball...  
Let them toil - till our soil  
Steal their civil liberties  
Turn their friends to enemies...

Salva nos! Salva!

Shock and awe - rockets soar  
We are now above the law!  
We want war - we want war!  
Like you've never seen before!

An eye for an eye is our alibi...

Wake up! Wake up! Wake up to the nightmare!  
Wake up! Wake up! Wake up to the nightmare!  
Welcome to the New World Order  
Terror without borders  
Welcome to the war!  
Welcome, welcome to the new world  
Welcome to the nightmare

We must bow down to law and order  
Kneel down before us  
We'll elect you and protect you

Too much power in one man's hand  
Yes, Mr. President

Vengeance is mine saith the Lord  
Heed the spirit of the law...
