

Ultimate Fakebook, Liferaft Halo

I'm down to no more patience
lack of sentiment liferaft
sit down the large-heart slave will see you now

don't try to play it all down around me
you know I see right through enough not to take it all the time

all said, I really don't care
all said, I really don't see at all

how that's the way I feel about you too
I'll stand in again
and maybe if I see it fall
I'll fight, I really don't care at all

I see the more I save the less you wanna pay
Offered on a silver plate of what I give

It doesn't matter
I'm sick of seein' it through
To even know how much I'd pay to forget your face

don't try to play it all down around me
you know I see right through enough not to take it all the time

all said, I really don't care
all said, I really don't care
all said, I really don't care
as much as you do (and you do)

hoo hoo hoo hoo...
hoo hoo hoo hoo...
yeah...

don't try to play it all down around me
you know I see right through enough not to take it all the time

all said, I really don't care
all said, I really don't see at all

how that's the way I feel about you too
I'll stand in again
and maybe if I see it fall
I'll fight, I really don't care at all

yeah

woo hoo hoo hoo hoo hoo hoo

yeah yeah yeah
