

# Ultra, Up And Over

Chorus :-

Hasn't anybody told you,  
Your time is up and over,  
You've broken me down,  
I could never feel the same for you,  
You could throw your body up into the air,  
You could be upset,  
But I will be there without you,  
Oh yeah...

I hold you near me but no words are spoken,  
This is a, a kinda love I'm dreaming of,  
If only I could stay,  
Why don't you tell me how my heart was broken,  
Just take a, a little time and tell me why,  
You threw it all away,  
I set your spirit free,  
You made a fool of me,  
Why don't you see, why don't you see...

Repeat Chorus

If you could hear just how my heart is beating,  
It's all out of time, so how do I,  
Start it up again,  
But what you tell me will not stop me from leaving,  
I need a little time, to step aside,  
To watch you fade away,  
I set your spirit free,  
You made a fool of me,  
Why don't you see, why don't you see...

Repeat Chorus

You are my best friend,  
On who I depend,  
And every little thing I do for you,  
The memories we share, will always be there,  
A little bit of me will stay with you...

Repeat Chorus
