

UltraSun, Love Me More

I have waited all my life for you...

i saw love coming for me and my heart
To love you forever just the way you are
So come on baby
Make me crazy

I have waited all my life for you
To Love Me Love Me More I dare you to
Wrap your arms around me like you do
And Love Me Love Me More I dare you to
I dare you to

A break in this silence you were standing there
You're a wandering angel to fly me somewhere
So come on baby

Make me crazy

I have waited all my life for you
To Love Me Love Me More I dare you to
Wrap your arms around me like you do
And Love Me Love Me More I dare you to
I dare you to

So come on baby
Make me crazy

I have waited all my life for you
To Love Me Love Me More I dare you to
Wrap your arms around me like you do
And Love Me Love Me More I dare you to
I dare you to
