

# Unanimated, Blackness Of The Fallen Star

come forth through the gates  
and show me your ways  
take away my mortal life, take it away  
let your magic touch embrace my mind  
lead my eyes through the fire storm  
I fall into the flames of hell  
I laugh as I burn  
in the hellish scorn I dwell  
but I will return  
the blackness in my soul awaits  
to fly from hell  
to a world I shall destroy  
to a mankind I shall kill  
grant me with magic and power  
to rise  
the ways of christ with joy I  
burn for you  
blessed souls shall suffer and  
bleed, bleed  
like a black fallen star you die  
I fall through the flames  
I laugh as I burn...
